PREMIUM QUALITY EXTRA VIRGIN OLIVE OIL

Riccolivo Premium Extra Virgin Olive Oil comes from the productive lands of the Mediterranean and the renowned foothills of Kaz Mountains, which are famous for having exceptionally high levels of oxygen.

The olives are picked early in October while they are still unripe and are immediately taken to the cold pressing center without any delay. At the center, the olives are gently pressed at controlled temperatures, which are carefully maintained below 27°C, on the same day and at the same hour of harvesting.

As an early harvest, Riccolivo stands as a pinnacle of excellence, offering a 100% premium quality extra virgin olive oil. It captivates the senses with its herbaceous and grassy aroma, reminiscent of unripe fruits. With each sip, it leaves behind a delightful, peppery-tingling sensation that envelops the palate and throat, ensuring an unforgettable experience.

BLACK TABLE OLIVES

The Mill carefully sources its Black Olives from 100-150-year-old Gemlik trees in the North Aegean region, following traditional production methods that prioritize the exclusion of pesticides.

These olives undergo a natural fermentation process under hygienic conditions, ensuring the preservation of their valuable vitamins, minerals, and antioxidant properties. To maintain the integrity of naturally fermented olives, it is essential to periodically invert the package, preventing the oil from settling at the bottom and ensuring the olives remain perfectly moist.

The Mill proudly offers a range of Black Olives varieties, including naturally fermented and fit (low salt) options, thoughtfully packaged in PET containers, glass jars, and tins. With a generous shelf life of 24-36 months, these delectable olives promise to elevate any culinary experience.
